

Your EDGE

A 6 month program providing women with at least 2 years' relevant work experience with mentoring, advocacy and skills development to break into investment management.

Starts May 2024

Applications close 30 April 2024

Want to launch your investment management career?

We've got the program for you.

Your dream investing role is just around the corner

We know the idea of an investment management career energises and excites you.

You just want an opportunity to make a difference in the world by combining your smarts and analytical skills, with your love of business, markets and big global issues.

Doing that alongside seriously smart people and making some decent coin would be the cherry on the cake.

You just need a little support to find your edge and land that first investments role.

You need:

- ▶ An opportunity to build the skills to land your dream investing role
- ▶ To be guided by a professional investor who can see how serious you are about your ambition
- ▶ Help building your network and profile with future employers

You're perfect for our early career mentoring program.

Does this sound like you?

You're super smart and killing it in your current role, but you don't know how to transition into that first investment role.

You just need to find your edge.

You need someone to see how your skills, energy and passion could add so much to their organisation, to see your potential and to give you a chance.

It's making you feel frustrated, questioning whether it's worth it, should you bother going after your passions or just stay on your current career path?

It also makes you question yourself, your value and your ability. Are you good enough, smart enough, skilled enough? Is this really what you were born to do?

You're ready to sink your teeth into a 1:1 mentoring program; to learn, stretch, connect and launch your investing career.

You don't have to do it alone

You don't have to wing it or figure it all out on your own.

We understand the fatigue of working full time AND often studying to build your credentials. Somewhere in there you want to have a life!

We get it, and it's our mission to support smart, passionate, numerate women just like you to find that edge that will help them launch their investment career.

For the last 5 years, Future IM/Pact has helped women from all walks of life break into the investment management industry. We partner with 24 industry firms and know what they're looking for and how to get you in the door.

Future IM/Pact was developed to be a gateway for women like you.

Our founder, **Yolanda Beattie**, is a leadership coach with over 20 years industry experience and a passion for helping professional women achieve their career aspirations.

Ready to take the next step? Our mentors will help you get you there.

A six-month 1:1 mentoring program

Be mentored by a professional investor

We'll pair you with an industry expert in your investment area of interest, so you receive specific, relevant guidance based on your situation and ambitions – no more general, confusing suggestions!

Broaden your network and industry contacts

You'll be introduced to investors throughout the industry so you deepen your networks and increase the likelihood that you're top of mind when opportunities come up – no longer a faceless name on an application.

Upskill your investing capabilities

You'll be supported to complete an investment study and present it at the wrap event so hiring managers can see the value of the skills you bring to the table in a context that's relevant and makes sense to them – no more questioning if you're good enough.

Build your interpersonal skills

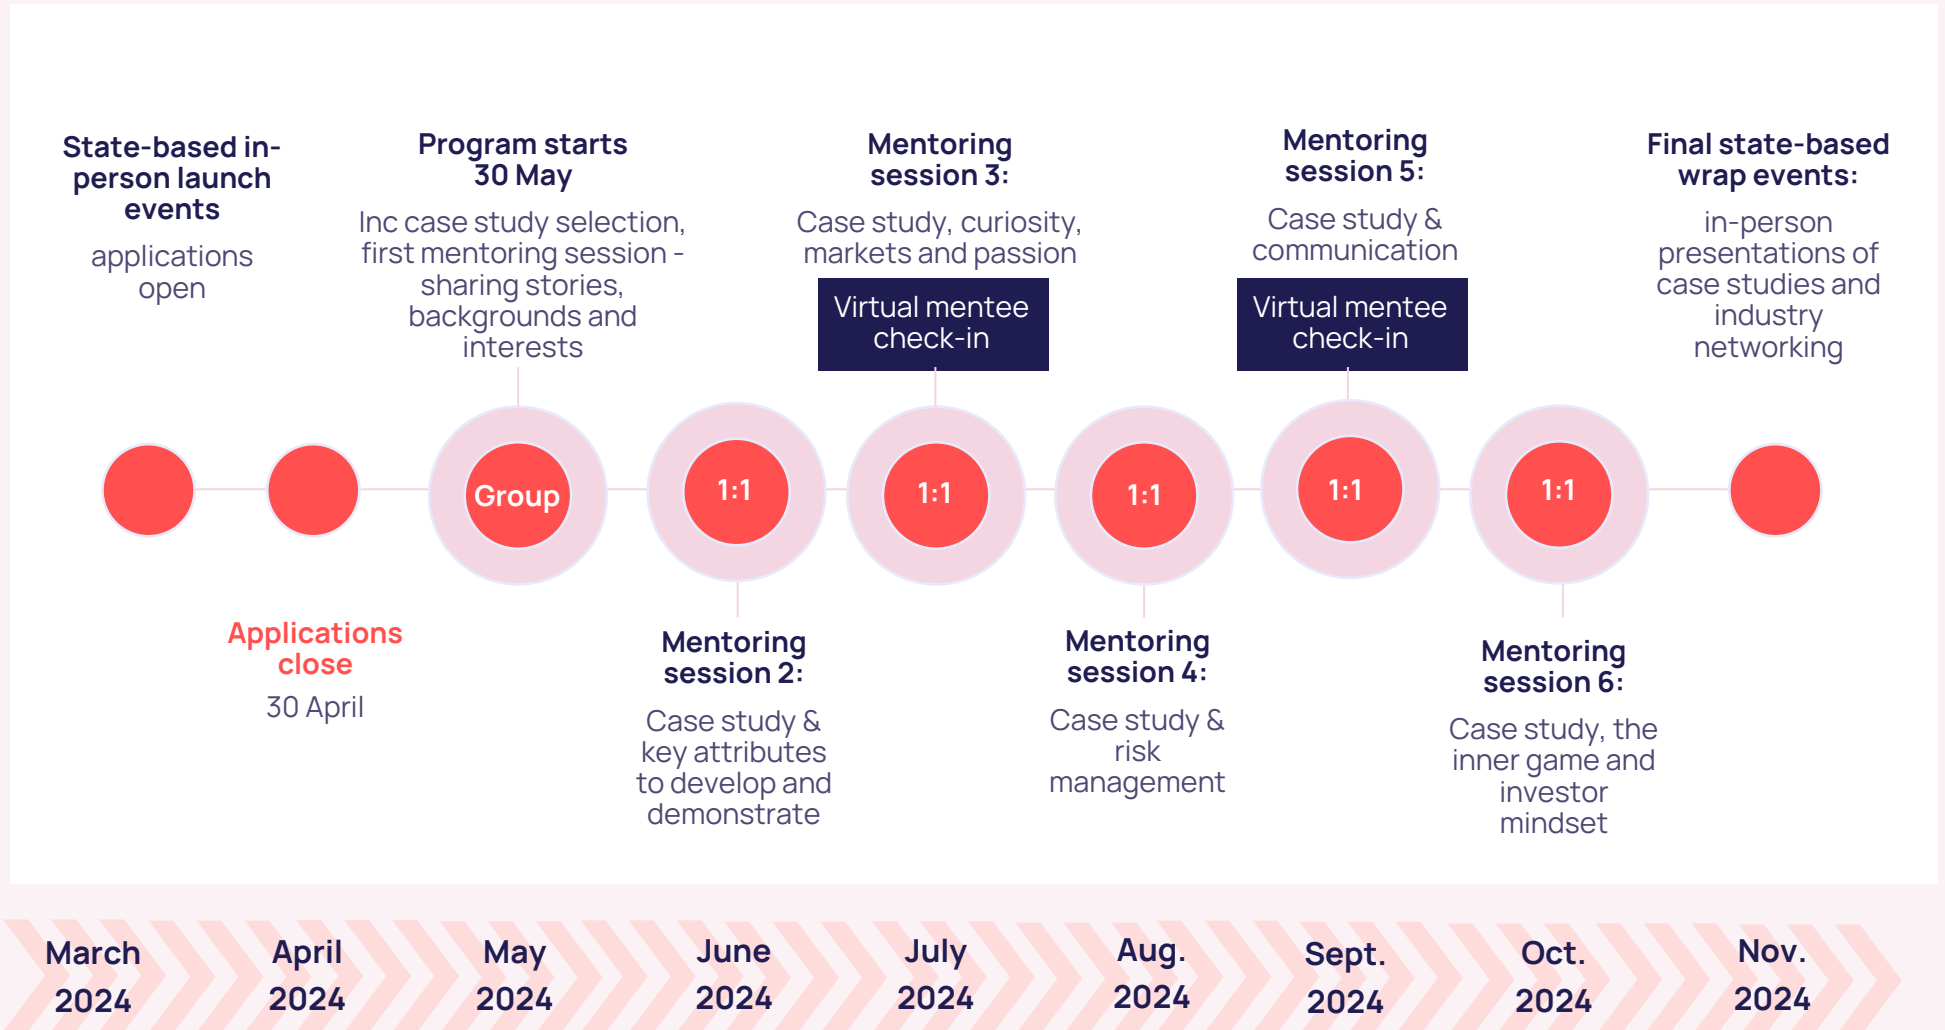

Sharpen your non-technical skills so you join your dream team as a well-rounded professional; technically astute AND with the knowledge and tools required to build a strong, emotionally intelligent mindset – no more self-doubts, fraught with

imposter syndrome wondering if you belong and not knowing how to overcome it.

Advocating for your potential

Increasing your visibility to those that matter so you benefit from the edge that comes when you have the support of, and permission to leverage, the reputational capital of leading investors and industry professionals – no more standing on your own professing your capabilities to a black hole.

YourEDGE program schedule
